

Ellie Krug Presents Her
Human is Human® Transformational Thinking Series

Gray Area Thinking®: Building a Just and Inclusive World in this Time of Division

You Are Invited to a Public Event to Learn Gray Area Thinking®

America is rapidly changing. People who are “Other”—persons of color, foreign-born humans, LGBTQ-identifying people and religious minorities—all seek their rightful places at the table. How can caring, compassionate humans help?

Ellie Krug, a “practical idealist,” seeks to help others understand the challenges and rewards in building a more inclusive world. Her innovative human inclusivity training, Gray Area Thinking®, has been presented across North America.

Join Ellie as she teaches how to engage in Gray Area Thinking® to be more welcoming to those who are “Other.” You’ll walk away with a new sense of purpose and a renewed hope about making the world a better place.

“Blown away by today’s Gray Area Thinking® training by incredible speaker @elliekrug. Every human being should take this training.”

@reneegrassi

“Best presentation I have been to. Engaged the audience, great use of humor and the exercise was one of the best displays of human truth I have ever been a part of or witnessed. Thank you!”
